

CODEX 2027 · MONTHLY RETURN POINT

MARCH · MAKE ROOM FOR A CLEAR YES

Beispiel / Example: a short monthly orientation that can be returned to without needing a full forecast.

MONTHLY FOCUS · MONATSFOKUS

Clarity before speed. Check the conditions that make one decision genuinely workable.

ONE QUESTION · EINE FRAGE

What becomes simpler when you name the capacity you actually have?

DO · WAS HILFT

- Check time, energy and existing commitments.
- Make one request more specific.
- Leave room between decision and action.

DON'T · WAS NICHT HILFT

- Turn pressure into a promise.
- Read urgency as proof of direction.
- Add a commitment before the frame is clear.

This is a sample of form and tone. Codex 2027 offers personal orientation and reflection prompts; it does not predict events or replace professional advice.

CURRENT SKY · SAMPLE

WHAT IS PRESENT RIGHT NOW?

Beispiel / Example: a concise written reflection that puts one current symbolic theme in context.

CURRENT THEME · AKTUELLES THEMA

A change in rhythm may be asking for attention before a new commitment is made.

CHART REFERENCE · CHART-BEZUG

Selected current transits are considered in relation to relevant natal placements.

REFLECTION · REFLEXION

Where do you need more information, and where do you simply need a quieter pace?

SCOPE · RAHMEN

One or two symbolic themes. No event forecast, diagnosis or deterministic advice.

A Current Sky sample shows the structure only. A personal version is written from the agreed birth information and current question.

PERSONAL PATTERN · SAMPLE

ONE RECURRING QUESTION. A PRECISE FRAME.

Beispiel / Example: a focused exploration of one theme in relationship, expression or direction.

FOCUS · FOKUS

The theme is not 'everything at once'; it is one recurring situation you can recognise in lived experience.

OBSERVATION · BEOBACHTUNG

The reading may connect selected placements, aspects and house themes without reducing a person to them.

REFLECTION QUESTION · PRÜFFRAGE

When does discernment support you - and when does it postpone a necessary conversation?

SCOPE · RAHMEN

A 3-4 page symbolic perspective. No diagnosis, prediction or complete Codex assessment.

Any interpretation remains an invitation to observation. Lived experience and choice always have priority.

ASTROLOGICAL FOUNDATIONS · SAMPLE

MORE THAN A SUN SIGN.

Beispiel / Example: an introductory map of selected natal foundations and one current context.

FOUNDATIONS · GRUNDLAGEN

Sun, Moon and Ascendant where birth time permits; selected placements and houses.

CENTRAL THREAD · ROTE FADEN

A careful synthesis of one chart theme rather than a claim to explain the whole person.

RETURN QUESTION · RÜCKFRAGE

Which conditions help you make room for both stability and change?

SCOPE · RAHMEN

A 4-6 page introductory reading. No full Codex, diagnosis or deterministic prediction.

When the birth time is unknown, the scope is adjusted and uncertain elements are not presented as certain.

CODEX INTRODUCTION · SAMPLE

ONE QUESTION. A FIRST MIRROR.

Beispiel / Example: a contained written starting point for one concrete question.

QUESTION · FRAGE

What needs to be clarified before you decide whether to continue, pause or ask for more information?

PERSPECTIVE · PERSPEKTIVE

A selected symbolic reference is translated into plain language and held alongside your own context.

THREE PROMPTS · DREI IMPULSE

1. What is known? 2. What is assumed? 3. What would a workable next step look like?

SCOPE · RAHMEN

One written PDF with reflection prompts. No live conversation included.

The final focus, source material, delivery and price are confirmed before any deeper Codex work begins.

PERSONAL CODEX · SAMPLE

SEVERAL PERSPECTIVES. ONE COHERENT THREAD.

Beispiel / Example: a wider written exploration followed by one focused conversation.

YOUR CONTEXT · DEIN KONTEXT

Several connected questions are gathered before the reading begins, so the scope stays clear.

SYNTHESIS · VERBINDUNG

Selected symbolic perspectives are set beside lived patterns, not above them.

CONVERSATION · GESPRÄCH

A 45-minute call is used to clarify questions and translate the written material into everyday choices.

SCOPE · RAHMEN

Personal written PDF plus one focused conversation. Focus agreed before booking.

This sample is intentionally anonymous. A personal Codex is not a clinical assessment or a fixed description of a person.

CODEX IN CONTEXT · SAMPLE

SEE THE CONTEXT. CHOOSE THE NEXT STEP.

Beispiel / Example: a wider frame for a transition, role, relationship or connected life situation.

CONTEXT · KONTEXT

What is changing, what is staying, and where does the question actually sit in the wider picture?

CONNECTIONS · VERBINDUNGEN

The written work links relevant themes without making claims about other people or predicting outcomes.

INTEGRATION · INTEGRATION

A 60-minute conversation turns the written reflection into a small, practical next-step map.

SCOPE · RAHMEN

30-minute scoping call, written exploration and 60-minute integration conversation.

The wider frame is agreed in advance. For relationship work, the participation and consent of all involved people is essential.
